

Addressable 240V Switching Module

Product Overview:

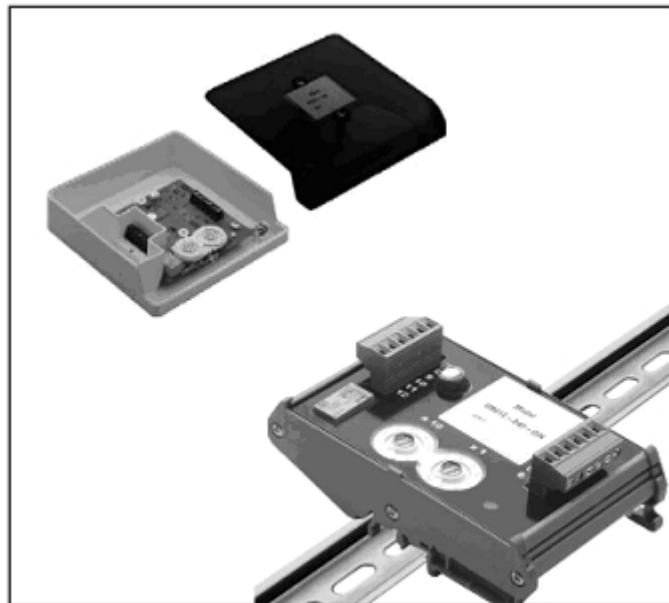

The M201E-240 **Addressable 240V Switching Module** is a loop-powered device controlling an unsupervised double pole (one normally open, one normally closed) output suitable for managing 240VAC loads. The output relay is a bistable device, latching in the on or off state on command from the control panel. The module is supplied in a wall mounting box as standard with a grounding terminal provided.

The M201E-240-DIN has the same features and capabilities as the M201E-240 but is designed to mount directly on to a standard 35mm 'Top Hat' DIN rail. The module is supplied unboxed for installation in a suitable enclosure.

Each module has built-in short circuit protection for the communication loop; however, to increase application flexibility, the isolators can be selected/ deselected on an individual module basis.

To help technicians in the maintenance and fault-finding process, both the LEDs and the switches can be viewed without having to remove the cover of the surface mounting box. The LEDs, being multi-colour, provide diagnostic information regarding the status of each individual input/output.

For each of installation, testing and maintenance, the field wiring terminals are of plug-in design.

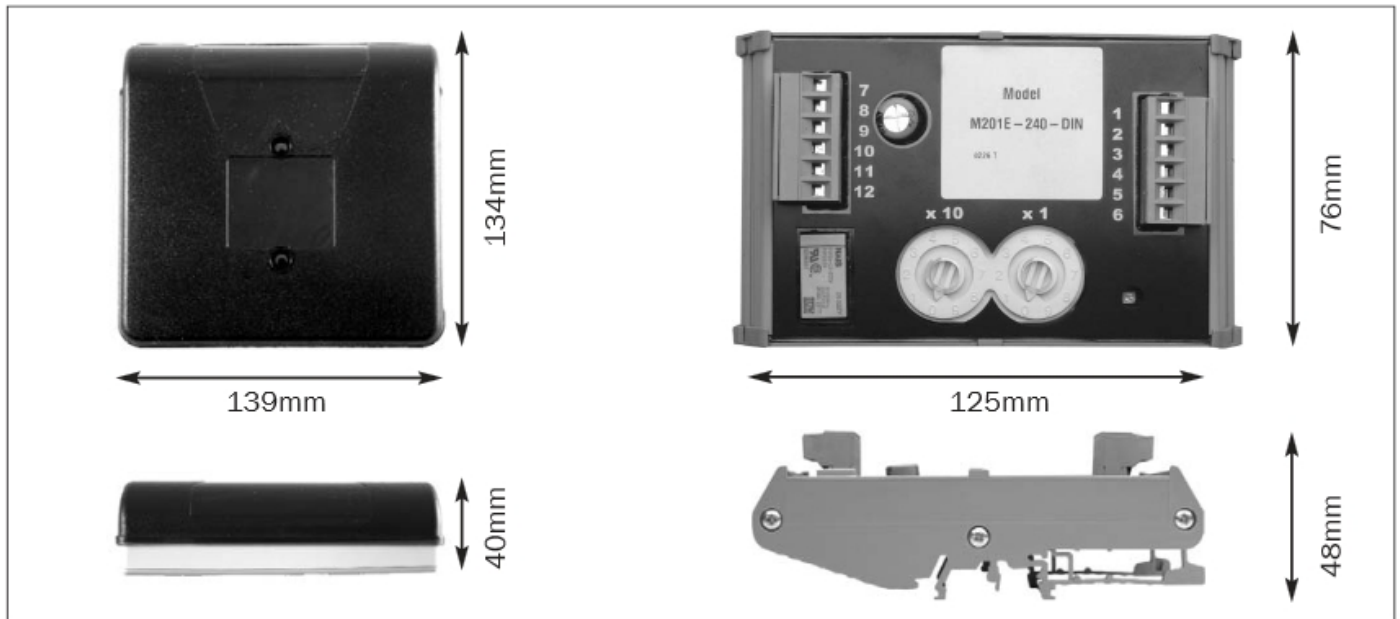

Features:

- » M201E-240 Addressable 240V Switching Module
- » M201E-240-DIN DIN Rail Mount Addressable 240V Switching Module
- » Tri-colour LEDs
- » Built-in short circuit isolators
- » Decade address switches

Specifications:

»	M201E-240	Dimensions	40 x 134 x 139	H x L x W mm
		Weight	195 g	
»	M201E-240-DIN	Dimensions	48 x 125 x 76	H x L x W mm
		Weight	140 g	
»	Cable Termination		0.5 to 2.5 mm ²	
»	Application Temperature Range		-20°C to 60°C	
»	Relative Humidity		10 to 95% RH, Non-condensing	
»	Ingress Protection Rating		IP24D	
»	Operating Voltage Range		15 to 30 Vdc	
»	Standby Current @ 24 VDC		275 µA, no communications	
»	Alarm Current @ 24 VDC		445 µA, one communication, each 5 seconds with LED blink enabled	

M201E-240 and M201E-240-DIN Addressable 240V Switching Module:

Ordering Information:

Product Code	Description
M201E-240	Addressable 240V Switching Module – Euro (with Integral Mounting Box)
M200E-DIN	DIN Rail Mounting Brackets
